The Group's Sports Lottery CTG Terminal Business Has expanded to cover 15 provinces, Gradually Establishing Its Position as the Industry Leader

China LotSynergy Holdings Limited (the "Company") is pleased to announce that Lottnal, a subsidiary of the Company, has successively won bids for Liaoning and Shaanxi province's Sports Lottery CTG terminal procurement programmes. To date, the Company's Sports Lottery CTG business has successfully expanded its coverage to 15 provinces and regions across China, maintaining its top rank in Sports Lottery CTG terminal sales this year.

Of these two provinces, Liaoning was a first win and Shaanxi was a second win. As a major province for Chinese sport, the rapid development of Liaoning's Sports Lottery market has become a strong driver for the development of its sports projects. In 2014, Liaoning province's Sports Lottery sales exceeded RMB 5 billion, ranking 15th nationwide; it advanced to 13th place in the first six months of 2015. Sales of Sports Lottery in Shaanxi province reached RMB 4.1 billion in 2014, growing at 83.5% year-on-year, and recording a compound annual growth rate ("CAGR") of over 35% for the past three years, surpassing the 20% CAGR of the Sports Lottery market and overall lottery market.

Lottnal became a qualified Sports Lottery CTG terminal supplier in 2013, and its Sports Lottery CTG terminal business has maintained a strong development momentum over the past two years. In 2014, Lottnal became a top 3 supplier, and in 2015, has become the top Sports Lottery CTG terminal supplier to date, with a business presence in almost half of the 31 provinces and regions across China, gradually establishing its position as the industry leader. In the future, the Company will continue to serve its existing markets well, accelerate expansion into new provinces, enhance the profile of the Company, further strengthen its industry leading position and actively strive to make larger contributions to the Chinese lottery market.
