With the addition of Shaanxi and Hunan, the Company has successfully expanded its Sports Lottery terminal business to cover 11 provinces and regions across China. So far this year, the Company has secured an approximately 32% share of the total purchase volume of Sports Lottery terminals nationwide, and has become the top Sports Lottery terminal supplier.

The Company launched its Sports Lottery terminal supply business in 2013. In 2014, it advanced to become a top three supplier, and in only two years' time, secured its position as the industry leader in 2015. This is a result of the Company's many years of focus on the public welfare lottery industry, and reflects the continued popularity of the China LotSynergy brand. Faced with increasingly fierce competition in the Sports Lottery market, the Company will redouble its efforts to continuously strengthen and expand its competitive advantages, accelerate expansion into new markets and maintain its industry leading position, in order to contribute to the Chinese public welfare lottery market.
