**Achieving further Bid on Lottery Terminals, China LotSynergy
Signed Supply Contract with Gansu Provincial Sports Lottery
Centre, securing further market share in the lottery terminal market
in Sports Lottery space**

China LotSynergy (the “Company”, together with its subsidiaries, the “Group”) is pleased to announce that Guangzhou Lottnal Terminal Company Limited (“Lottnal”), a subsidiary of the Company, has been confirmed by the public tender evaluation committee in the bid for the procurement of lottery terminals for Gansu Provincial Sports Lottery Administration Centre to be the winning provider. The supply contract has been signed recently with Gansu Provincial Lottery Administration Centre.

To promote further development of Sports Lottery with emphasis on improving the standard of terminal hardware, a terminal replacement exercise has been commenced for the sports lottery market across the country. The Group has seized such opportunities by securing business development steadily. After it was successfully included in the list of approved providers of lottery terminals for China National Sports Lottery Administration Centre in March this year, the Group has won the bid for procurement of sports lottery terminals in Guizhou Province in July, and now this bid in Gansu Province. The breakthrough achieved in these two provinces represents the initial realization of the Group’s business strategy of expanding into the sports lottery market across China as well as recognition of Lottnal’s comprehensive capabilities in technology, product and service.

30th September 2013

While Lottnal is closely working with Guizhou Provincial Sports Lottery Administration Centre on rolling out the new terminals, it has commenced supplying terminals to Gansu Provincial Sports Lottery Administration Centre.

We believe the success in securing these two provincial contracts is only a beginning for the Group to further penetrate the lottery terminal market in Sports Lottery across the country.
