WON BIDS FOR THE SPORTS LOTTERY TERMINAL AND HIGH FREQUENCY DISPLAY DEVICE PROCUREMENT PROGRAMMES OF SHAANXI PROVINCE

The Board is pleased to announce that Lottnal, a subsidiary of the Company, has successively won bids for the Sports Lottery terminal and high frequency display device procurement programmes of Shaanxi province recently.

The Board of Directors (the "Board") of China LotSynergy Holdings Limited (the "Company", together with its subsidiaries, collectively referred to as the "Group") is pleased to announce that Guangzhou Lottnal Terminal Company Limited (廣州洛圖終端技術有限公司, "Lottnal"), a subsidiary of the Company, has successively won bids for the Sports Lottery terminal and high frequency display device programmes of Shaanxi province recently.

In these two procurement programmes, Lottnal successfully won the bids for 500 lottery terminals and 3,500 high frequency display devices respectively. The high frequency display device, also known as the terminal information display device, is a new product that was first introduced in China's Sports Lottery market in 2015. It is mainly for retrieving the game information of Sports Lottery's computer-generated ticket games, broadcasting game display of Sports Lottery's high frequency games and 3D high frequency games, and the control and setting of information display. After it passed the assessment on the terminal information display device conducted by China Sports Lottery Administration Centre of the General Administration of Sports of China in October 2015, Lottnal has actively developed this new market in the Sports Lottery area, winning the bids for procurement programmes in many provinces with its products. To date, it has the biggest market share of China's Sports Lottery terminal information display device market.

The Group became a qualified Sports Lottery computer-generated ticket game terminal supplier in 2013, advanced to become one of the top three suppliers in 2014 and achieved a leading position in China's Sports Lottery terminal market in 2015. It shows the Group's Sports Lottery series products have gained recognition of its customers for their maturity, reliability and after-sale services, and its brand name has become popular. The Group will accelerate its expansion into new provinces and markets by continuously developing new products and improving its business planning, so as to strengthen its industry leading position.

By order of the Board
China LotSynergy Holdings Limited
LAU Ting
Chairperson of the Board

Hong Kong, 23 May 2016
